

# WI

Ultra-compact two-way trapezoid system

## features

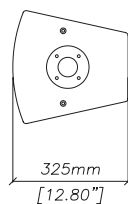

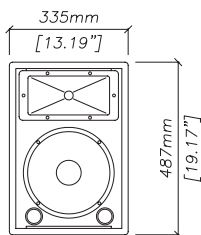

- ▶ Ultra-compact trapezoid enclosure
- ▶ High SPL output capability
- ▶ 70° coverage angle
- ▶ Multi-laminate birch plywood construction
- ▶ 10" (250mm) LF/1" (25mm) HF driver combination

## applications

- ▶ Audio-visual presentations
- ▶ Theatre sound systems
- ▶ Club sound reinforcement
- ▶ Distributed sound systems
- ▶ Live sound infill system

The Martin WI Wavefront system is a high performance, ultra-compact loudspeaker designed for specific applications where both high output capability and small size are required. Typical uses include audio-visual presentations and theatre sound. The WI features a 10" (250mm) bass driver and 1" (25mm) exit compression driver housed in a rugged plywood enclosure built using the same construction techniques as larger Martin touring systems. Its 2-way passive configuration simplifies operation, ensures predictable system performance and reduces amplifier count.
